RESEARCH PROFILE

M.Sc. student in Materials and Metallurgical Engineering at BUET with a B.Sc. in Mechanical Engineering. Three peer-reviewed publications in heat transfer, CFD and aerodynamics. Currently researching cooling of bifacial PV modules, and seeking a Master's/PhD position on next-generation photovoltaic devices.

Research interests: Perovskite and bifacial photovoltaics · Thermal management of solar cells · Heat transfer and fluid flow · Computational fluid dynamics (CFD)

EDUCATION

M.Sc. in Materials and Metallurgical Engineering Ongoing

Bangladesh University of Engineering and Technology (BUET), Dhaka, Bangladesh

- Research focus: perovskite solar cells

B.Sc. in Mechanical Engineering 2023

Khulna University of Engineering and Technology (KUET), Khulna, Bangladesh

- Thesis: *Heat Transfer and Fluid Flow Analysis in a Corrugated Plate Heat Exchanger*

RESEARCH EXPERIENCE

Cooling System Design for Bifacial Solar Cells Present

Independent research

- Investigating thermal regulation of bifacial PV modules, where rear-side irradiance raises operating temperature and cuts conversion efficiency.
- Building heat-transfer models of candidate cooling mechanisms to quantify efficiency gains.
- Designing combined numerical and experimental studies for device-level optimization.

Heat Transfer and Fluid Flow in a Corrugated Plate Heat Exchanger 2022

Undergraduate research, KUET

- Ran CFD simulations in ANSYS Fluent of flow and heat transfer in corrugated channels.
- Validated numerical results against theoretical correlations.
- Presented at ICMIEE-2022; published in the conference proceedings (2025).

Collaborative CFD Studies 2025

- Numerical study of fin geometry and material for air-cooled engine cylinders (*Next Research*, 2025).
- Compressible-flow study of Mach number effects on a biconvex airfoil (*Engineering and Applied Science*, 2025).

TECHNICAL SKILLS

Simulation	ANSYS Fluent (CFD for heat transfer and compressible flow)
CAD	SOLIDWORKS, AutoCAD
Programming	C/C++, Arduino
Data analysis	OriginPro, Microsoft Excel
Graphics	Adobe Illustrator, Adobe Photoshop
Languages	Bengali (native), English (professional working proficiency)

LEADERSHIP AND AWARDS

- **Founding Team Member**, KUET Mars Rover — Team Durbar
- **Project Manager and Instructor**, LOOP (Control Engineering Club), KUET
- **Class Representative**, Mechanical Engineering Association, KUET
- **2nd Place**, Project Making Competition, Programming and Introduction to Robotics Workshop, LOOP, KUET, 2018
- **2nd Place**, Macroinnovators, IEEE SS12, IEEE Student Branch, KUET, 2018
- **3rd Place**, Technical Drawing and CAD Competition, CADers, KUET, 2017
- **Participant**, "GPH Ispat – Esho Robot Banai" 72-hour robotics hackathon, GPH Group
